

APPENDIX A: CWPP Addendum For County Wildland Fire Interagency Groups

This template may be used by County Wildland Fire Interagency Groups in order to more clearly express their priorities for hazardous fuels treatments, firefighting assistance, or other needs related to the National Fire Plan. Although the form is not required, **those County Working Groups that choose to submit this document will receive priority consideration for competitive grant and assistance funding programs.** This document provides your County Working Group with the opportunity to provide direct input into the process used to determine how National Fire Plan funds are distributed. If your Working Group would like to provide more project detail, you may attach additional sheets to this form or create your own document.

You may submit this document by mail or e-mail to:

B. Hazardous Fuels Treatments, Non Federal Lands

Please provide a list of hazardous fuels treatment projects that your group would like to see conducted on *private* lands. There is room available to include five projects, but you may provide more if you would like. Projects should be delineated by a specific boundary (i.e. subdivision, community, or watershed; simply stating "the eastern portion

of the county” would not be specific enough). **This list of priorities may be changed at any time as projects are completed or as conditions warrant.**

Example: Castle Mountain Creeks Subdivision (adjacent to Garden Mountain BLM project, already completed)

1. WUI Zone 1 Sheep Creek/Salisbury Estates Summer Home Area
2. WUI Zone 3 , Bills Road Summer Home Area
3. WUI Zone 3 , North side of Palisades Reservoir from Indian Creek Road to Swan Valley Fire District Boundary, (3b) Lakeview Drive Summer Home Area
4. WUI Zone 2—North side of Palisades Reservoir from Wyoming Line to Indian Creek
5. All private lands around Palisades Reservoir

C. Hazardous Fuels Treatments, Federal Lands

Please provide a list of hazardous fuels treatment projects your group would like to see conducted on *federal* lands. For projects conducted within the wildland urban interface (WUI), it may be appropriate to include the adjacent community or subdivision. However, it is also appropriate to include those federal projects outside the WUI. **This list of priorities may be changed at any time as projects are completed or as conditions warrant.**

1. WUI Zone 4 Southwest side of Palisades Reservoir including Calamity and Palisades Summer Home Areas
2. WUI Zone 1 Hoffman Estates/McCoy Creek Road Area
3. WUI Zone 5 Little Lemhi Scout Camp, Ta-Man-A-Wis Scout Camp
4. _____
5. _____

D. Firefighting Assistance Funds

Please provide a list of firefighting needs for fire departments within your county. The list may include tangible resources like fire trucks and hoses, safety or communications equipment like Personal Protective Equipment (PPE) and radios, as well as training and assistance with the creation of new fire districts. The purpose of this list is to create better awareness of resource needs within the county and to better allocate resources between various grant and assistance programs at the state level. Even though the needs of a number of different fire departments or districts are to be listed here, **the needs of each fire department or district will be evaluated independently.** If fire entities are unable to develop a countywide priority list, they may list the priorities of each department or district separately. **This list of priorities may be changed at any time as projects are completed or as conditions warrant.**

Example:

1. Creation of a new fire district in a rural portion of the county.
2. Equipment for fire districts #1 and #2
3. New fire house for district #4
